

# MacGregor hydraulic hose kit for hose handling cranes

At your service

**MACGREGOR**

Designed to perform with the sea

## OEM-standard hydraulic hoses enhancing uptime and safety

In addition to being the market leading original equipment manufacturer (OEM) of MacGregor cranes for decades, MacGregor is now launching its hose kit for hose-handling cranes. These hoses are thoroughly tested, inspected and delivered with MacGregor standard guarantee and support from our global service network.

### Safety

Hydraulic hoses are products that need constant condition monitoring and visual inspection. It is important to observe and visually inspect how the hoses perform during operation on a regular basis.

### Hoses and connectors are exposed to

- Ultra-violet rays
- Wear and tear damage
- Corrosion on fitting/couplings
- Adhesives and chemical substances
- Paint
- Movement/bending

MacGregor therefore recommends that hydraulic hoses are to be changed every fifth year and immediately if there are signs of wear and tear or breakage.

Around the world, there are several manufacturers offering hoses of variable quality and price. MacGregor hydraulic hoses solution is based on our extensive knowledge and continuous testing of hose and crane technology.

MacGregor shapes the offshore and marine industries by offering world-leading engineering solutions and services with a strong portfolio of MacGregor, Hatlapa, Porsgrunn, Pusnes and Triplex brands. Shipbuilders, owners and operators are able to optimise the lifetime profitability, safety, reliability and environmental sustainability of their operations by working in close cooperation with MacGregor.

MacGregor solutions and services for handling marine cargoes, vessel operations, offshore loads, crude/LNG transfer and offshore mooring are all *designed to perform with the sea*.

*MacGregor is part of Cargotec. Cargotec's class B shares are quoted on NASDAQ OMX Helsinki Ltd.*

### Why MacGregor (OEM) hose kit?

- Enhanced uptime and safety for your cranes
- Highest MacGregor OEM standard
- Delivered with MacGregor standard guarantee
- Tested and proven application
- 24/7 support from MacGregor service network
- Delivered complete with needed couplings and anticorrosive MacTape

### Article number

Crane type	Article number
HH250	400021553
HH400	400021554
HH630	400021555

### Ordering

When placing your order, please state the IMO number of the vessel and the serial number of the crane.
