

# PUSNES Safe Chain Stopper

## Features

Anchoring is one of the most critical operations onboard a vessel. Problems during anchoring operations can be very serious to the safety of the vessel and its crew.

MacGregor has developed the Pusnes safe chain stopper which combines the normal chain stopper function with a new safety device. This device will arrest a rendering chain, protecting the winch motor and equipment against damages during anchoring operations

## Advantages

- Chain stopper with safety function
- Can be installed on all types of vessels and all chain sizes
- For new buildings and retrofit
- This device will arrest a rendering chain
- Protects the winch motor and windlass against damages during anchoring operations
- Chain diameter  $\varnothing 62 - \varnothing 111$  mm K3

MacGregor shapes the offshore and marine industries by offering world-leading engineering solutions and services with a strong portfolio of MacGregor, Hatlapa, Porsgrunn, Pusnes and Triplex brands.
