Welcome to the TTS E-Learning Portal

The TTS E-learning portal is your tool for personal development through courses and presentations.

The courses are developed considering pedagogical issues, learning objectives and interactive exercises to facilitate for your learning process. A course diploma can be printed out when completing the course.

The portal is divided into two parts, external and TTS internal. Individual login details will be provided upon request. Both categories with their different courses are presented when clicking "Course Categories" in upper left window.

If you have questions regarding enrolment to TTS e-learning courses or other course related questions please contact us at tsb@tts-ohe.com

TTS Training Program

TTS GROUP ASA

Programs

The TTS E-learning portal is your tool for personal development through courses and presentations.

The courses are developed considering pedagogical issues, learning objectives and interactive exercises to facilitate for your learning process. A course diploma can be printed out when completing the course.

The portal is divided into two parts, external and TTS internal. Individual login details will be provided upon request. Both categories with their different courses are presented.

In addition to existing courses it would be possible to order your own E-learning courses, e.g. reverse an already conducted practical course into E-learning.

E-learning courses

TTS E-learning is a flexible training that also could be ordered as an offline courses

Course examples:
· Operators introduction
  - Understand and use of the operators screen
  - Familiarization with crane operation

· Maintenance introduction
  - Familiarization with TTS maintenance schedules and logs
  - Hydraulic maintenance
  - Electro maintenance
· E-learning courses based on practical courses

E-learning could be used as a supplement or as a standalone product.

All TTS E-learning is based on TTS cranes.

Where to find?

You will find the courses at
